- Sales commission scales with revenue — it isn't a fixed cost. Estimate: ~10–12.5% of monthly cash collected (closer rate) + 3% of capped cash on setter-attributed one-time sales + 25% recurring on each active
- Setters are paid only on one-time sales. Subscriptions (monthly recurring) pay 25% to the closer who signed them up — setters get nothing on subscriptions.
- Bi-weekly amounts converted to monthly using 26 pay periods / year ÷ 12 months. Actual months will see either 2 or 3 pay periods depending on calendar.
- Coaching subtotal shows the maximum — Leo's pay scales with sessions and may be lower than the \$2,000 cap.
