**SCHEDULE**

The most up-to-date times are pinned in Skool. Replays drop within 24 hours.

STEP 5 · YOUR TRADING LOG

# Log Every Trade — Every Time

The trading log is the single most important habit in your first 90 days.

**01**

## Spot patterns

Win rate by strategy, by ticker, by time of day. Data, not feelings.

**02**

## Coach reviews weekly

Elliot reads your log every week and coaches against actual trades.

**03**

## Build conviction

Reviewing your own log is how you stop guessing and start trading.

### WHERE TO FIND IT

Your dashboard at [trader.foundation](https://trader.foundation) — front and center. Add a row after every trade.

STEP 6 · WEEKLY CHECK-IN

# One Form. Once a Week. Five Minutes.

The check-in is how your coach knows what you need before your next session.

## WHY IT MATTERS

- Tells your coach what you're working on right now
- Surfaces what's blocking you before it becomes a problem
- Keeps Ariana looped in on your overall progress

## WHAT YOU'LL ANSWER

- What did you work on this week?
- Where did you get stuck?
- What do you need from your coach?

## DON'T SKIP IT

Without weekly check-ins, your coach is flying blind — and you're paying for guidance you're not using.
